

LOADING ARMS

Basic top filling.

For top filling of road or rail tankers.

Available in 3"(DN 80) or 4"(DN 100) nominal **clear bore**.

Carbon or Stainless Steel Construction.

Choose:

- Nitrile seals for long life and low cost.
- PTFE seal for chemical compatibility.
- Viton seals for oil products.

Features Gas spring counter balance, for a smooth dampened operation which holds the arm stationary in all positions. The gas spring arrangement is more compact and does not require extra space behind the arm for a bulky counter weight.
